Table #1: ACCP/ASHP/VCU Congressional Healthcare Policy Fellowship

American College of Clinical Pharmacy/ American Society of Health-System Pharmacists/ The Virginia Commonwealth University School of Pharmacy

Fellowship

Primary Specialty: Other
Secondary Specialty: Health Policy
Position Start Date: 9/1/2016
Length of Program: 1 year(s)
Number of Positions: 1
Stipend: \$67,000

Position Description:

The Congressional Healthcare Policy Fellow Program is a collaborative effort of the School of Pharmacy at the Medical College of Virginia / Virginia Commonwealth University, the American College of Clinical Pharmacy and the American Society of Health System-Pharmacists, each of which participates in the selection of the professional-level individual for this one-year fellow award.

The Program provides a unique healthcare policy learning experience which is designed to demonstrate the value of pharmacy-government interaction, and to facilitate practical contributions to the effective use of scientific and pharmaceutical knowledge in government policy development. Fellows spend a month with each of the professional organizations as members of their respective government and government and professional affairs staff. In November of the fellow year they begin working in a legislative environment requiring healthcare input on the staff of an individual Senator or Representative or a relevant Congressional committee.

The program is an enriching opportunity for the Fellow to develop legislative evaluation and policy development skills, improve research and writing skills and integrate practical policy experience with theory. The Fellow will be available to undertake a wide array of responsibilities including researching and preparing briefs on healthcare issues, assisting with policy decisions, drafting memoranda, planning, organizing and carrying out program and management objectives.

The focused orientation will be completed before the fellow begins their legislative placement. The Congressional office [personal or committee] placement should ideally be with one of the Committees that predominantly deal with health issues such as the: Senate Health , Education, Labor, and Pensions, Senate Finance Committee, Senate Budget Committee or the House Ways and Means or Energy and Commerce Committees.

Table #2: Achaogen Biopharmaceutical Clinical Sciences Fellowship

Achaogen Biopharmaceutical Clinical Sciences Fellowship

Fellowship
Position Start Date: 7/1/2016
Length of Program: 2 year(s)

Position Description:

Achaogen Clinical Sciences Fellowship is designed to develop pharmacists to assume a variety of responsibilities within the biopharmaceutical industry. Applicants must be Pharm.D. candidates/graduates and enthusiastic professionals with excellent communication skills. Individuals with an interest in drug development and clinical research are encouraged to apply. The fellowship involves hands-on training with mentorship from experts in the field. The successful candidate will participate in a broad range of activities including drug discovery, early and late clinical development/translational medicine, regulatory affairs and scientific communication/medical affairs. Oversight of research projects with associated presentation at major medical meetings and journal publication is expected.

Table #3: Boston Medical Center

Boston Medical Center PGY1

Residency

Primary Specialty: Pharmacy
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 5
Stipend: \$43,500

Position Description:

Boston Medical Center (BMC) offers a challenging and rewarding PGY1 residency. The resident's year is structured into a tailored, comprehensive program that emphasizes development of advanced pharmaceutical care skills, while encouraging residents to explore interests in teaching and research. After orientation to the department, the resident begins a series of 5 week rotations and other longitudinal activities designed to meet the goals and objectives of the residency program. Required rotations include Internal Medicine, Critical Care, Ambulatory care, Practice Management and Hematology/Oncology or Pediatrics. Longitudinal responsibilities include an on-call program, research project, Formulary Management Committee activities and hospital practice responsibilities.

Boston Medical Center

Residency

Primary Specialty: Ambulatory Care
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Stipend: \$47,500

Position Description:

The Ambulatory Care Specialty residency program is an ASHP-accredited PGY2 residency program offering advanced clinical training in ambulatory care pharmacotherapy and medication therapy management. Rotation experiences include primary care, HIV, cardiology, renal/transplant, family medicine, and anticoagulation. Teaching experience is gained by precepting a pharmacy student on rotation, participating as a facilitator for therapeutics seminar and/or pharmaceutical care lab at a local school of pharmacy, and attending a resident teaching seminar. The resident meets objectives in practice management and drug policy development by conducting medication use evaluations, preparing drug monographs, and acting as a drug information resource.

Boston Medical Center PGY2 Critical Care

Residency

Primary Specialty: Critical Care
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 1
Stipend: \$47,500

Position Description:

The PGY-2 Critical Care residency is an ASHP-accredited PGY-2 program offering specialized training in critical care pharmacotherapy. After orientation to the department, the resident begins a series of rotations and other activities designed to meet the goals and objectives of the PGY-2 residency in critical care. Rotation options include emergency medicine, medical intensive care, surgical intensive care, cardiac intensive care unit, nutrition support, infectious diseases, and neurocritical care. Longitudinal activities include completion of a research project, drug policy development and several teaching opportunities. In addition, the resident meets the objectives for hospital practice by participating in the on-call program and working scheduled shifts in the Emergency Department.

Boston Medical Center

Residency

Primary Specialty: Emergency medicine

Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Stipend: \$47, 500

Position Description:

Boston Medical Center is a Level 1 Trauma center with > 130,000 patient visits per year. After orientation to the department, the resident begins a series of rotations and other activities designed to meet the goals and objectives of the PGY2 residency in emergency medicine. Rotation options include emergency medicine, medical intensive care, surgical intensive care, and cardiac intensive care. The resident will complete ACLS training and participate in code/trauma response while in the ED. Longitudinal activities include completion of a research project, drug policy development and teaching opportunities (formal CE lectures, case conferences, co-precepting pharmacy students). In addition, the resident meets the objectives for hospital practice by participating in the on-call program and by staffing in the ED satellite pharmacy.

Boston Medical Center PGY2 Infectious Diseases

Residency

Primary Specialty: Infectious Diseases
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 1
Stipend: \$47,500

Position Description:

The Infectious Diseases Pharmacy Residency Program at Boston Medical Center (BMC) provides a structured training experience for pharmacists looking to develop clinical expertise in infectious disease pharmacotherapy. Core learning activities include inpatient ID consult, critical care, outpatient HIV clinic, microbiology and antibiotic stewardship. The resident is an integral part of the ID pharmacy team and will gain experience and competence in order to function as an independent clinical specialist in the provision of pharmaceutical care to patients with infectious disease needs. Additionally, the resident will gain experience providing education in experiential and didactic settings, education of patients and health-care providers, and conduction of independent research.

Boston Medical Center

Residency

Primary Specialty: Oncology
Position Start Date: 7/1/2016
Length of Program: 1 year(s)

Stipend: \$47,500

Position Description:

The Hematology/Oncology Specialty residency program is an ASHP-accredited PGY2 residency program offering advanced training in both inpatient and outpatient cancer care and chemotherapy. After orientation to the department, the resident begins a series of rotations and other activities designed to meet the goals and objectives of the Boston Medical Center (BMC) specialty residency in hematology/oncology program. Rotation options include inpatient medical oncology, ambulatory medical oncology, amyloid stem cell transplantation, infectious disease, investigational drugs, and anemia management. Throughout the course of the year, the resident meets objectives in practice management and drug policy development by participating in the DUE program, drug information service, and by completing various administrative and management projects.

Table #4: Le Bonheur Children's Hospital

Le Bonheur Children's Hospital PGY2 Residency

Residency

Primary Specialty: Pediatrics
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 2
Stipend: \$46,000

Position Description:

This ASHP-accredited PGY2 residency is affiliated with the University of Tennessee Health Science Center and emphasized critical care. Required rotations include parenteral nutrition, pediatric, neonatal, and cardiovascular critical care, and emergency medicine. Elective experiences are available in most sub-specialty areas. Residents have opportunities for didactic and clerkship teaching in addition to participating in a pediatric elective class. Residents are required to obtain PALS certification, complete a MUE, a resident project, and submit a manuscript. Responsibilities also include clinical service every 4th-6th weekend and 16 hours per month of staffing in a critical care satellite pharmacy. The University of Tennessee, Memphis is an equal employment opportunity/affirmative action/Title IX/Section 504 employer.

Table #5: Lipscomb University College of Pharmacy

Lipscomb University PGY1 Psychiatric Pharmacy Residency

Residency

Primary Specialty: Pharmacy
Secondary Specialty: Psychiatric Pharmacy
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 1

Position Description:

Lipscomb University College of Pharmacy (LUCOP) and Vanderbilt University Medical Center have partnered together to offer a Postgraduate Year One (PGY1) Psychiatric Pharmacy Residency. The majority of the residency experience involves an inpatient experience at Vanderbilt University Medical Center. The resident will gain experience in a multitude of psychiatric settings including adolescent, adult, substance abuse, research, administration, and partial hospitalizations. The resident will learn to treat patients diagnosed with schizophrenia and other psychotic disorders, bipolar disorder, major depressive disorder, anxiety disorders, substance use disorders, personality disorders, dementia, and other disorders. Through collaboration with LUCOP, the resident will complete a teaching and learning certificate program.

Lipscomb University Community Pharmacy Residency

Residency

Primary Specialty: Community Pharmacy

Position Start Date: 7/1/2016

Length of Program: 1 year(s)

Position Description:

The community pharmacy residency program at Marcrom's Pharmacy is a joint effort between Lipscomb University College of Pharmacy and an independent community pharmacy practice. Marcrom's Pharmacy incorporates innovative workflow and utilization of experienced technicians to facilitate face-to-face time for pharmacists. Services provided include specialty compounding, brace and prosthetic fitting, hospice care, immunization and other injectable therapies, as well as a variety of specialized clinic activities. Pharmacists provide counseling to all patients, monitor blood pressure, blood glucose, HgbA1c, INR, lipids as well as provide MTM services. Clinic times are scheduled for education and management of patients.

Through collaboration with LUCOP, the resident will complete a teaching certificate program.

Lipscomb University Informatics Residency

Residency

Primary Specialty: Informatics

Position Start Date: 7/1/2016

Length of Program: 1 year(s)

Number of Positions: 1

Position Description:

This informatics residency has been developed with a unique focus in medication use safety and drug information. The practice site rotations will be completed at the Vanderbilt University Medical Center and the Lipscomb University College of Pharmacy.

Pharmacy Informatics residents will develop competencies and skills in the areas of pharmacy informatics, medication safety and academia, while applying pharmacy informatics principles and best practices. They will also gain experience in the areas such as drug information, pharmacy automation, leadership development, project life cycle, project management, CPOE and CDS.

We offer a teaching and learning certificate, a certificate of advanced study in Health Care Informatics and the Master of Science in Health Care Informatics.

Lipscomb University College of Pharmacy**Residency**

Primary Specialty: Ambulatory Care
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 1

Position Description:

The resident will have the opportunity to practice in a HRSA funded clinic for underserved patients and a private practice physician group.

The Clinic at Mercury Courts is an interprofessional collaboration between Urban Housing Solutions, Vanderbilt University School of Nursing (VUSN), and Lipscomb University College of Pharmacy and Health Sciences. The nature of the interprofessional collaborative practice involves a physician, family nurse practitioner, pharmacist, and professional counselor. The pharmacist role involves chronic disease management, health promotion and preventive activities for patients, and clinical preceptor for students from six different health professional programs.

Maury Regional Medical Center and Lipscomb University College of Pharmacy**Residency**

Primary Specialty: General Inpatient Pharmacy Practice
Position Start Date: 7/1/2016
Length of Program: 1 year(s)

Position Description:

Maury Regional Medical Center (MRMC) and Lipscomb University College of Pharmacy (LUCOP) have formed a

collaboration to offer a post-graduate year one (PGY-1) general inpatient pharmacy practice residency. This unique residency merges inpatient and outpatient care with academia. The majority of the resident's six-week clinical rotations will occur at MRMC, a 275-bed regional medical center located in Columbia, Tennessee. The resident will become an expert in managing a variety of disease states and caring for a wide range of populations from premature infants to geriatric patients. The resident will provide in-services, journal clubs, pharmacy continuing education, as well as didactic and clinical teaching.

Table #6: Lucile Packard Children's Hospital Stanford

Lucile Packard Children's Hospital Stanford

Residency

Primary Specialty: Pharmacy
 Secondary Specialty: Pediatrics
 Position Start Date: 6/20/2016
 Length of Program: 1 year(s)
 Stipend: \$82,000

Position Description:

This comprehensive one year specialty residency provides in-depth training and exposure in managing all aspects of neonatal and pediatric critical care. Residents will have the opportunity to rotate through the pediatric, cardiovascular and neonatal intensive care units, operating room/anesthesia, nutrition services, and infectious disease. Other experiences include, solid organ transplant, hematology/oncology, stem cell, nephrology, pulmonology, neurology, emergency department and other areas to fit the resident's interest. Residents are required to attend Code Blue events, serve on the Critical Care and Code Committees and present to Pharmacy & Therapeutics Committee. The goal of the PGY2 residency in Critical Care is to train excellent, innovative clinical pharmacists suited to work with critically-ill children.

Table #7: MCPHS University

MCPHS University Biopharmaceutical Industry Fellowship

Fellowship

Position Start Date: 7/1/2016

Length of Program: 2 year(s)

Position Description:

For more than 10 years, the Biopharmaceutical Industry Fellowship Program at MCPHS University has been providing Doctor of Pharmacy graduates with in-depth, specialized training at various pharmaceutical companies within the industry. During the two years of the program, fellows gain significant hands-on experience in their respective functional areas to help build the solid foundation and key professional relationships necessary for a successful career within the industry. In addition to the intensive industry training, the fellowship also fosters professional development through quarterly conference series, numerous networking opportunities, and comprehensive events organized through the many different fellow-lead committees.

Methodist University Hospital

Residency

Primary Specialty: Pharmacy

Position Start Date: 7/1/2014

Length of Program: 1 year(s)

Number of Positions: 7

Stipend: \$41,000

Position Description:

Since 1964, MLH has offered a pharmacy residency program and is comprised of a multi-site PGY1 (University and Germantown) and 5 PGY-2 training programs. Residents are primarily located at University Hospital, an academic medical center affiliated with the University of Tennessee Health Sciences Center (UTHSC). Our programs provide residents with the knowledge and skills required to become competent clinical pharmacists capable of providing care in a variety of settings. In addition, residents are expected to complete a major project to be presented at a regional pharmacy meeting, provide education to patients, pharmacy students and other health professionals, serve on various institutional committees, and participate in departmental projects. All residents have the opportunity to participate in the UTHSC Teaching and Learning Program.

Table #9: Monroe Clinic

Monroe Clinic

Residency

Primary Specialty: Ambulatory Care
 Position Start Date: 6/27/2016
 Length of Program: 1 year(s)
 Stipend: \$44,300

Position Description:

The Monroe Clinic and Hospital is a multi-specialty health care center serving patients from Southern Wisconsin and Illinois. The program's primary focus is Ambulatory Care, with a strong emphasis on teaching. Required rotations include Pharmacotherapy Clinic, Medicine (a hospital experience), Community Pharmacy Practice, Primary Care, Medication Use, and teaching in the Pharmacotherapy Lab at the University of Wisconsin School of Pharmacy. Elective rotations include Pulmonology/Allergy, Cardiology, Psychiatry, Neurology, Nephrology and Gastroenterology. Residents are encouraged to participate in a Teaching Certificate Program offered through the School of Pharmacy. The residency's primary goal is to train competent, well-rounded clinicians, capable of practicing independently in a clinic setting in collaboration with physicians.

Table #10: Purdue University Affiliated Community

Purdue University College of Pharmacy Community Practice Research Fellowship

Primary Specialty: Community Practice Research
 Position Start Date: 7/1/2016

Length of Program: 2 year(s)
Stipend: \$45,000

Position Description:

The Purdue University College of Pharmacy offers a 2-year Community Practice Research Fellowship program with an emphasis in Medication Safety. The program provides the learner with a foundation in scholarship and practice pertaining to community pharmacy services with an emphasis on activities related to the community pharmacist's role in enhancing medication safety. Fellows have an opportunity to refine their clinical practice skills, develop skills in research, and gain experience in teaching. Fellows complete graduate coursework, leading to a M.S. in Pharmacy Practice. The fellow collaborates with Rx-SafeNet, a community pharmacy practice-based research network in Indiana that is administered by the College of Pharmacy.

Purdue University College of Pharmacy Medication Safety Fellowship
Fellowship

Primary Specialty: Medication Safety
Secondary Specialty: Academia
Position Start Date: 7/1/2016
Length of Program: 1 year(s)
Number of Positions: 1
Stipend: \$50,000

Position Description:

The Medication Safety Fellowship is a focused experience in the Indianapolis, Indiana area meant to concentrate efforts on those who wish to pursue a career path in academia, clinical practice, or the pharmaceutical industry. One position is available for the 2015-2016 year. The fellow will rotate at Eli Lilly and Company in the Pharmacovigilance and Global Patient Safety Department and at Purdue University College of Pharmacy's Center for Medication Safety Advancement (CMSA). Opportunities for experience in regulatory areas are also available. The Fellow will have various educational experiences in cross-functional departments and have the opportunity to publish articles, present at local and national meetings, and work on projects relating to medication safety in a variety of exciting professional settings.

Purdue University College of Pharmacy Community Pharmacy Residency
Residency

Primary Specialty: Community Pharmacy
Position Start Date: 7/1/2015
Length of Program: 1 year(s)

Position Description:

Several community pharmacy residencies affiliated with the Purdue University College of Pharmacy are available. PGY-1 Community Pharmacy Residencies (available July 2016) are offered by the following pharmacies, in collaboration with Purdue:

- Dr. Aziz Pharmacy (Indianapolis, IN)
- Fagen Pharmacy (Valparaiso, IN)
- Kroger Pharmacy (Indianapolis, IN)
- Mathes Pharmacy (New Albany, IN)
- Walgreens Pharmacy (Indianapolis, IN)

Each residency provides extensive experience in community-based patient care, including medication therapy management and disease state management activities; management/leadership activities; patient-centered prescription processing; teaching; and practice-based research. Residents receive significant mentoring to develop clinical practice skills. Residents from each program have the opportunity for networking and shared learning through joint participation in a formal research project development discussion series and a teaching certificate program.

Please visit <http://www.phpr.purdue.edu/residencies/> for more information about each program, specific educational requirements, and application instructions.

Rutgers Institute for Pharmaceutical Industry Fellowships Fellowship

Primary Specialty: Drug Development
Position Start Date: 7/1/2016
Length of Program: 2 year(s)
Number of Positions: 25

Position Description:

The Rutgers Pharmaceutical Industry Fellowship Program is an industry-based training program which partners with the leading pharmaceutical and bio-pharmaceutical companies. The program is designed for individuals with a Doctorate of Pharmacy to further their experience in the pharmaceutical industry through work experience and clinical research. It is a structured program designed to provide hands-on training in functions ranging from coordinating clinical trials to liaising with regulatory agencies and research organizations, while preparing pharmacists for challenging positions within the pharmaceutical industry.

Each year, the program recruits for numerous positions in various functional areas at the top companies in the pharmaceutical industry across the country. There are currently 120 fellows. Positions vary between 1 and 2 years in duration.

Table #13: SC College of Pharmacy, University of South Carolina, Palmetto Health

SC College of Pharmacy, Univ. of South Carolina, Palmetto Health

Residency and Fellowship

Primary Specialty: Infectious Diseases
Position Start Date: 7/1/2016
Length of Program: 2 year(s)
Stipend: \$45,000

Position Description:

The SC COP at the University of South Carolina offers both a 12-month, post-graduate year 2 (PGY-2) Infectious Diseases (ID) Specialty Residency and a 12 month Infectious Diseases Clinical Fellowship following successful completion of the Infectious Diseases PGY-2 Residency. The sponsoring department is the Department of Clinical Pharmacy & Outcomes Sciences. Program faculty are noted regional and national experts in clinical infectious diseases with track records of success in research and academia. Patient care activities will primarily be at Palmetto Health, the university affiliated tertiary care, academic medical center. Primary and elective rotations will include key areas of inpatient and outpatient infectious diseases (e.g. microbiology, HIV clinic, ID consults, antimicrobial stewardship).

Residency

Primary Specialty: Internal Medicine
Position Start Date: 7/5/2016
Length of Program: 1 year(s)
Stipend: \$46,000

Position Description:

The PGY-2 Internal Medicine Residency Program is designed to provide the opportunity for the resident to obtain advanced training in the area of internal medicine and its sub-specialties. The resident will receive well-rounded training experience that will enable the resident to succeed in the areas of service, teaching, and scholarly activities. Service experiences include clinical service, formulary management, medication-use evaluation, and distribution. The internal medicine services are academic teaching services run by physicians who value pharmacy services and are receptive to pharmacy contributions to teaching and patient care. Teaching experiences include didactic teaching, small group facilitation, experiential precepting, and human-patient simulation. Scholarly experiences include

preparation of a manuscript for publication, presentation of a professional poster at a national meeting, and development of a longitudinal research project. Required rotations include Internal Medicine (x4), MICU (x1), and 3 open elective experiences. Rotations are structured to meet personal interests. In addition, an optional international rotation in South Africa is also available as a unique learning experience. The program's goal is to prepare the resident for a position in any number of areas of internal medicine practice, including academia and clinical specialist positions.

Western University of Health Sciences, College of Pharmacy

Residency

Primary Specialty: Community Pharmacy
Position Start Date: 7/1/2016
Length of Program: 1 year(s)

Position Description:

The purpose of the Western University School of Health Sciences/Ralphs Pharmacy PGY-1 Community Pharmacy Program is to develop pharmacy practitioners who are leaders and skilled patient care providers within the community pharmacy or health center setting. This residency program prepares its graduates to assume positions as outpatient clinic/community pharmacy clinicians, community pharmacy managers, to serve as adjunct faculty for a college of pharmacy, or to pursue careers in academia. The program balances experiences in community pharmacy and ambulatory care with teaching, research, project management, and pharmacy practice management. The resident will participate in providing various clinical service activities and community pharmacy corporate management. The resident will also have the opportunity to obtain a teaching certificate.

Residency

Primary Specialty: Pharmacy

Position Start Date: 7/1/2015

Length of Program: 1 year(s)

Number of Positions: 2

Stipend: \$45,000

Position Description:

The PGY-1 Residency Program at California Northstate University College of Pharmacy, in association with Sutter Medical Center Sacramento (SMCS), will welcome two pharmacy residents in July of 2016. The residency program received full accreditation from the American Society of Health-System Pharmacy (ASHP) in April of 2013. This is a unique opportunity to receive specialized training in the academic environment while completing a well-rounded, individualized clinical pharmacy program.

Residents will gain experience teaching in our unique team-based-learning curriculum as well as multiple opportunities in small group facilitation, CE presentation, and precepting. Additionally, Sacramento offers a multitude of different health centers in which to gain general clinical pharmacy experience. The program is now in its fifth year.

Creighton University, Center for Drug Information & Evidence-Based Practice

Fellowship

Primary Specialty: Drug Information
Position Start Date: 7/1/2013
Length of Program: 2 year(s)
Number of Positions: 1
Stipend: \$42,500

Position Description:

The Center for Drug Information & Evidence-Based Practice at Creighton University offers an intensive 2-year fellowship with an emphasis in drug information and evidence-based practice. The fellow will play an integral role in the mission of the Center. The fellow will gain in-depth experience in drug information practice, drug information-related research and scholarship, research synthesis, principles of evidence-based practice, clinical decision making, and teaching. The strength of the program lies in its flexibility. While the emphasis is on drug information research and practice, the fellow has the opportunity to explore research in numerous other areas, depending on interest.

St. Jude Children's Research Hospital

Residency

Primary Specialty: Medication Safety

Position Start Date: 7/1/2016

Length of Program: 1 year(s)

Stipend: \$54,000

Position Description:

This program provides advanced training in medication safety and medication use policy. The complex and high risk nature of treatment provided at St. Jude provides a unique learning environment for patient safety and quality that can be later applied to any health care setting. The resident will gain experience in medication error and adverse drug event reporting processes, lead medication safety assessment and improvement efforts to prevent future events, and work to maximize the patient safety benefits of medication safety technologies. Other activities include policy and guideline development, formulary management, and experience with a fully integrated electronic medical record.

University of Chicago Medicine PGY-1/2 Health System Pharmacy Administration Residency

Residency
Primary Specialty: Administration
Position Start Date: 7/1/2015
Length of Program: 2 year(s)
Stipend: \$38,000

Position Description:

The PGY-1/2 Health System Pharmacy Administration residency at UCMC is a directed, post-graduate training experience in pharmacy leadership. This program is concurrent with participation in the ASHP Foundation Pharmacy Leadership Academy and pursuit of a master's degree from an academic institution within the GlobalHealth Education Network. Residents practice patient centered care, clinical and didactic teaching, research methodology, and leadership. Clinical rotations are available in areas including internal medicine, critical care, infectious diseases, pediatrics, oncology, surgery, transplant, cardiology, neurology, and pharmacokinetics. Administrative rotations are available in areas including medication safety, pharmacy informatics, investigational drug services, clinical management, pharmacy operations, and ambulatory care.

Yale-New Haven Hospital

Residency

Primary Specialty: Critical Care

Position Start Date: 7/11/2016

Length of Program: 1 year(s)

Number of Positions: 1

Stipend: \$45,000

Position Description:

Located in scenic New England, Yale-New Haven Hospital is spread out on 2 campuses within walking distance of each other. The Pharmacy Department that serves both campuses is progressive, providing decentralized clinical services, automation, USP 797 sterile preparation, and support to numerous ambulatory clinics and a 125-bed skilled nursing facility.

Residency Special Features: Core rotations include nutrition, emergency medicine, and multiple intensive care unit (ICU) rotations (medical, surgical, neuroscience, cardiac, cardiothoracic). Elective rotations include infectious disease, burn unit, pediatric ICU, investigational drug service, critical care pharmacy administration, pain service, and other rotations by special arrangement. Teaching opportunities include clinical teaching of Pharm.D. students and PGY-1 residents, as well as didactic lectures. Residents are encouraged to participate in an optional teaching certificate program offered through the University of Connecticut.

Fringe Benefits: The resident is provided with 2 weeks PTO, health/life insurance, reimbursement for reasonable expenses of 1-2 meetings such as ASHP Midyear Meeting, SCCM Annual Congress, or other conference with residency program director approval.

Special Requirements for Acceptance: Successful completion of PGYI residency, eligible for CT licensure, CV, academic transcripts, letter of intent, sample of written work, 3 letters of recommendation.

Barnes-Jewish Hospital

Residency

Primary Specialty: Transplantation
 Position Start Date: 6/27/2016
 Length of Program: 1 year(s)
 Number of Positions: 1
 Stipend: \$48,000

Position Description:

The PGY2 residency in solid organ transplantation is designed to provide a diverse experience while focusing on the individual needs of the resident. The program provides a broad experience in numerous aspects of transplantation including the heart, lung, kidney, liver, and pancreas transplant services, as well as a focused transplant infectious diseases rotation. Residents will complete a residency project, participate in didactic and experiential teaching, and gain drug policy experience through active committee participation. Elective participation in a teaching certificate program offered through St Louis College of Pharmacy is available to the residents.

Barnes-Jewish Hospital

Residency

Primary Specialty: Pharmacy
 Position Start Date: 6/27/2016
 Length of Program: 1 year(s)
 Stipend: \$42,000

Position Description:

The PGY1 residency is a one year program designed to provide a broad pharmaceutical care experience. Applicants should have completed a Pharm.D. degree. The program is accredited by the American Society of Health-System Pharmacists (ASHP). Experiential training in pharmaceutical care is provided by practicing clinicians in a wide variety of patient care areas. Required experiences include internal medicine, drug information/pharmacy administration, critical care, infectious diseases, and ambulatory care or internal medicine II. Numerous elective experiences are available to each resident to complete their training. In order to provide an individualized approach to post-graduate education, the specific needs and goals of each resident will be assessed and a program will be designed for each individual. In addition to clinical experiences, residents will complete a residency project, participate in didactic and experiential teaching and gain writing and drug policy experience.

Barnes-Jewish Hospital - Pharmacotherapy**Residency**

Primary Specialty: Pharmacotherapy
Position Start Date: 6/27/2016
Length of Program: 2 year(s)
Number of Positions: 1
Stipend: \$42,000

Position Description:

The 24-month specialty residency in pharmacotherapy at Barnes-Jewish Hospital is intended to train outstanding practitioners at the level of pharmacotherapy specialists. Our program is an ASHP-accredited PGY1 and PGY2 specialty-level program that is designed to give experiences in a broad range of clinical areas while allowing a resident to concentrate in a particular area of interest during the latter part of the program. Since the initiation of the pharmacotherapy program in 1998, our graduates have continually practiced at high levels in a variety of fields including cardiology, industry and research, internal medicine, patient safety, administration, emergency medicine, critical care, transplant, and infectious diseases.

Goals and objectives of a PGY1 and PGY2 residency will be incorporated into the two-year program. The residents will have an opportunity to work with Barnes-Jewish Hospital clinical pharmacists in a variety of settings including internal medicine, critical care (medical, surgical, neuroclinical, cardiac, and cardiothoracic), solid organ transplant, stem cell transplant, investigational drugs, and drug information. A longitudinal outpatient clinic experience is included in the second year of the Pharmacotherapy program.

In addition to clinical, teaching and research activities, residents will also be responsible for readying a paper for publication submission. Emphasis on preparation for attainment of Board Certification in Pharmacotherapy following graduation is included.

Onsite Contact(s): Jo Ellen Rodgers

UNC Chapel Hill Postdoctoral Fellowship Programs

Residency

Primary Specialty: Drug Development
Position Start Date: 7/1/2016
Length of Program: 2 year(s)
Number of Positions: 10
Stipend: \$43,000

Position Description:

The UNC Eshelman School of Pharmacy offers several two-year postdoctoral fellowships, including:

1. Clinical Research/Drug Development (CR/DD) sponsored by PPD, United Therapeutics, and UCB.
2. Medical Affairs, sponsored by GSK and United Therapeutics
3. Global Regulatory Affairs, sponsored by GSK
4. PK/PD/PM sponsored by Quintiles
5. Academic fellowships in Heart Failure, Cardiovascular Disease, HIV/Infectious Disease and Oncology

Fellows will work under the direction of one or two faculty members. Fellows assist in conducting clinical research studies (Phase i, ii, or iii) and/or pharmacokinetics/drug metabolism/genomic studies in humans. Research areas include oncology, cardiovascular disease, infectious diseases, hepatology, neurology, and transplantation. Fellows will gain hands-on experience in conducting clinical research studies, and will attend training sessions and classes on clinical research design, biostatistics, PK/PD/pharmacometrics and drug transport/metabolism/IRB/FDA regulations, good clinical practice, and the drug development process. Fellows will have experience presenting to a journal club and seminar group, and will develop skills in writing protocols, abstracts, and manuscripts. In addition, fellows will have the opportunity to travel to one or more professional meetings at the expense of the program.

Fellows appointed to industry-partnered fellowships commonly spend the first year at UNC and the second year working with research scientists in the industry sponsor's research facilities. Fellows may be assigned to a specific research/clinical group, or may be involved with various aspects of industry research and the conduct of clinical studies.

In many respects, the various industry-sponsored CD/DD, GRA and PK/PD fellowships are very similar, with the exception of the type of projects, studies, and coursework to which fellows are exposed (e.g., broad conduct of clinical trials, regulatory affairs initiatives and projects, PK/PD studies including modeling).

Academic fellows will work closely with renowned faculty in heart failure/cardiovascular disease, HIV/ infectious disease, or oncology on clinical, preclinical and in-vitro research projects. Academic fellows will also focus on protocol and grant writing, scientific writing, presentations, and teaching. They will take appropriate coursework, including study design, biostatistics, and pharmacogenomics.

For application please include:

- Letter of Intent
- Curriculum Vitae
- Teaching Philosophy Statement
- Name, phone number, and email address for at least 3 references

About CHSU:

California Health Sciences University (CHSU) College of Pharmacy – the first university of its kind in the region - was founded in 2012 to help remedy the shortage of health care services offered in the Central Valley. While this culturally rich and diverse area offers the unique combination of high quality of life, affordable cost of living and plentiful career opportunities, it has also been recognized as a Health Care Professional Shortage Area (HPSA) and Medically Underserved Area (MUA) with Medically Underserved Populations (MUP), especially in the rural communities. The CHSU College of Pharmacy mission statement directly targets this need in our community by setting our sights on transforming pharmacy into a primary care profession by training our graduates to practice at the top of their licenses. Additionally, CHSU utilizes the cutting-edge pedagogy of Team-Based Learning for the entire pharmacy curriculum to prepare graduates for collaborative practice on the health care team. The College of Pharmacy was the first program offered because of the high demand for pharmacists and CHSU plans to open up to 5 doctoral schools to train health care professionals in the coming years and is considering Allied Health, Dentistry, Podiatry, and a Medical school.

CHSU is an Equal Opportunity/Affirmative Action Employer. Minorities, women, veterans, and persons with disabilities are encouraged to apply.

Table #12: Intermountain Healthcare

Ambulatory Care Pharmacist

Position Type:	Clinical Pharmacy Practitioner
Salary:	\$105,000-120,000 based on experience
Position Description:	

Intermountain Healthcare is an internationally recognized, nonprofit integrated healthcare system based in Salt Lake City, UT, with 22 hospitals, a Medical Group with over 1100 employed physicians, and more than 185 primary care and specialty clinics. We also maintain an affiliated health insurance company, SelectHealth. With our 36,000 employees, we are the largest healthcare provider in the Intermountain West, serving the healthcare needs of Utah and southeastern Idaho residents. We offer a full range of services, from urgent care to home care to the region's most advanced trauma centers. Providing excellent care of the highest quality at an affordable cost is at the heart of our vision. Our mission is helping people live the healthiest lives possible.

Visit Intermountainhealthcare.org to learn more about us and our commitment to quality care.

The Clinical Pharmacist role is essential to patient care. The Clinical Pharmacist is valued for applying knowledge and skills to deliver appropriate, safe, efficient, effective, and cost-effective pharmaceutical care in the scope of their particular assignment. The Clinical Pharmacist is instrumental in the care of patients, as well as the development of effective, professional relationships within the multidisciplinary team. Acting as a resource to other staff members, the Clinical Pharmacist is an esteemed and valued clinical provider of patient care.

The Ambulatory Care Clinical Pharmacist is an essential member of the healthcare team and will provide comprehensive medication management to a variety of patients seen in the primary care setting. This pharmacist will manage drug therapy under established collaborative drug therapy management (CDTM) agreements, promote the safe and efficacious use of drug therapy and contribute to the expansion and development of ambulatory care services at Intermountain Healthcare. Responsibilities include direct patient care, medication therapy management under collaborative practice agreements, protocol development, medication reconciliation and transitions of care, patient and provider education, and service development. This pharmacist is a member of the ambulatory care team and actively participates in team meetings, staff development programs, projects, service coverage, and journal clubs. This pharmacist serves on departmental and interdisciplinary committees to support the organization's efforts for improve patient safety, therapeutic outcomes, and cost savings; precepts pharmacy students and residents; and serves as a medication therapy resource for other clinical pharmacists, physicians, nurses, and patients. Opportunities for collaborative clinical research are available and encouraged. This position works collaboratively with other pharmacy staff and reports to the Community Pharmacy Clinical Manager.

Table #13: King Saud Medical City

Clinical Pharmacy Practitioner

Salary:	Excellent Tax-Free Salary;15% cost of living incr
Position Type:	Clinical Pharmacy Practitioner
Position Description:	

King Abdulaziz Medical City (KAMC) is the main medical center campus for the Saudi Arabia Ministry of National Guard Health Affairs (MNG-HA) system and serves as the largest medical complex in Saudi Arabia. MNG-HA's goal is

to be recognized as the leading health care system in the Gulf through the provision of excellent patient care, state-of-the-art education and training, and cutting-edge research.

Located in Riyadh, KAMC is a health sciences center that includes colleges of medicine, dentistry, pharmacy, nursing, applied medical sciences, and public health and informatics. The campus is expanding from its current 1200 inpatient beds to 2400 beds by 2014, including the construction/addition of a children's hospital, neuroscience center, oncology center, transplant center, women's center, and psychiatric and addiction institute. In addition, the Medical City is increasing and enhancing its ambulatory care services across its centers and clinics.

Open Clinical Specialist Positions – Pharmaceutical Care Department: The MNG-HA hospitals in Riyadh are seeking applicants for clinical specialist positions in Infectious Disease. Responsibilities include developing and maintaining an innovative clinical practice.

MNG-HA has a long-term consultative agreement with the American College of Clinical Pharmacy, which assists in advancing clinical pharmacy education, training, clinical practice, and professional development. The hospital's residency program is accredited by the American Society of Health-System Pharmacists.

Successful candidates will participate in the further growth and development of an already established clinical pharmacy program by optimizing pharmacotherapy outcomes in a progressive, U.S.- style academic/team care environment. Opportunities are available to educate pharmacy students, medical students, and pharmacy residents. Research participation and publication is encouraged. Attendance at professional and scientific meetings for presenting research and other scholarly work is supported.

Qualified candidates must possess a Pharm.D. degree from an ACPE-accredited institution with a PGY1 and PGY2 residency specializing in Internal Medicine or equivalent clinical experience. Board certification is preferred.

KAMC offers an excellent salary and benefits package commensurate with education and experience. Salary and other benefits include tax-free earnings, free furnished housing, educational allowance of up to three eligible dependents enrolled in grades 1–12, 60 days of annual vacation leave, three holiday periods totaling 21 days, an annual roundtrip airline ticket for employees and eligible dependents to and from their home country/point of origin, an annual paid professional leave, free medical care and emergency dental care, and free access to campus exercise facilities. Other services provided include Internet access, landline telephone, cable TV, social club access, and bus transportation to/from the campus and shopping malls/business districts.

Positions are available immediately. Qualified candidates should send a letter of interest, a curriculum vitae, and three letters of reference by e-mail to:

Abdulkareem Albekairy, M.Sc., Pharm.D.
Assistant Director, Clinical Pharmacy, (KAMC)
Pharmaceutical Care Services (MBC 1125)

Clinical Pharmacy Practitioner

Salary: Excellent Tax-Free Salary; 15% cost of living included

Position Type: Clinical Pharmacy Practitioner

Position Description:

King Abdulaziz Medical City (KAMC) is the main medical center campus for the Saudi Arabia Ministry of National Guard Health Affairs (MNG-HA) system and serves as the largest medical complex in Saudi Arabia. MNG-HA's goal is to be recognized as the leading health care system in the Gulf through the provision of excellent patient care, state-of-the-art education and training, and cutting-edge research.

Located in Riyadh, KAMC is a health sciences center that includes colleges of medicine, dentistry, pharmacy, nursing, applied medical sciences, and public health and informatics. The campus is expanding from its current 1200 inpatient beds to 2400 beds by 2014, including the construction/addition of a children's hospital, neuroscience center, oncology center, transplant center, women's center, and psychiatric and addiction institute. In addition, the Medical City is increasing and enhancing its ambulatory care services across its centers and clinics.

Open Clinical Specialist Positions – Pharmaceutical Care Department: The MNG-HA hospitals in Riyadh are seeking applicants for clinical specialist positions in Infectious Disease. Responsibilities include developing and maintaining an innovative clinical practice.

MNG-HA has a long-term consultative agreement with the American College of Clinical Pharmacy, which assists in advancing clinical pharmacy education, training, clinical practice, and professional development. The hospital's residency program is accredited by the American Society of Health-System Pharmacists.

Successful candidates will participate in the further growth and development of an already established clinical pharmacy program by optimizing pharmacotherapy outcomes in a progressive, U.S.- style academic/team care environment. Opportunities are available to educate pharmacy students, medical students, and pharmacy residents. Research participation and publication is encouraged. Attendance at professional and scientific meetings for presenting research and other scholarly work is supported.

Qualified candidates must possess a Pharm.D. degree from an ACPE-accredited institution with a PGY1 and PGY2 residency specializing in Infectious Disease or equivalent clinical experience. Board certification is preferred.

KAMC offers an excellent salary and benefits package commensurate with education and experience. Salary and other benefits include tax-free earnings, free furnished housing, educational allowance of up to three eligible dependents enrolled in grades 1–12, 60 days of annual vacation leave, three holiday periods totaling 21 days, an annual roundtrip airline ticket for employees and eligible dependents to and from their home country/point of origin, an annual paid professional leave, free medical care and emergency dental care, and free access to campus exercise facilities. Other services provided include Internet access, landline telephone, cable TV, social club access, and bus transportation to/from the campus and shopping malls/business districts.

Positions are available immediately. Qualified candidates should send a letter of interest, a curriculum vitae, and three letters of reference by e-mail to:

Non-Tenure Track Clinical Faculty

Position Type:

Non-Tenure Track Clinical Faculty

Salary:

Excellent Tax-Free Salary

Position Description:

The King Saud bin Abdulaziz University for Health Sciences (KSAU-HS) is located in Riyadh and houses six colleges. These are the Colleges of Medicine, Pharmacy, Dentistry, Public Health and Health Informatics, Applied Medical Sciences, and Nursing. Two satellite KSAU campuses are also located in the cities of Jeddah and Al-Ahsa. The close affiliation of KSAU-HS with the National Guard Health Affairs (NGHA) hospitals, the most advanced medical complex in the region, has enabled the university to enhance its curricula and academic programs and given the university and its students full access to clinical and teaching sites staffed with exceptionally competent health professionals. Open faculty positions in the Department of Pharmacy Practice: The KSAU College of Pharmacy is seeking applicants from several clinical specialties for nontenure-track faculty positions in the Department of Pharmacy Practice at the assistant, associate, or full professor level. Responsibilities include developing, coordinating, and delivering didactic education; developing and maintaining innovative clinical practice sites at the affiliated, state-of-the-art, 1200-bed National Guard Hospital in Riyadh; and conducting scholarly activity, including collaborative research and publication.

The newly established College of Pharmacy at KSAU-HS employs a U.S.-style innovative Pharm.D. curriculum through a collaborative partnership with the University of Tennessee College of Pharmacy. The curriculum is delivered by U.S.-educated and trained faculty/clinicians of diverse nationalities. The curriculum is designed to achieve educational outcomes consistent with ACPE accreditation standards for professional programs leading to the Pharm.D. degree.

Qualified candidates must possess a Pharm.D. degree from an ACPE-accredited institution with a PGY1 and PGY2 residency, fellowship or equivalent clinical experience. Board certification is preferred.

KSAU-HS offers an excellent salary and benefits package commensurate with education and experience. Salary and other benefits include tax-free earnings, free furnished housing, educational allowance of up to three eligible dependents enrolled in grades 1–12, 60 days of annual vacation leave, three holiday periods totaling 21 days, an annual roundtrip airline ticket for faculty members and eligible dependents to and from their home country/point of origin, an annual paid professional leave, free medical care and emergency dental care, and free access to campus exercise facilities. Other services provided include Internet access, landline telephone, cable TV, social club access, and bus transportation to/from the campus and shopping malls/business districts.

Table #14: King Saud bin Abdulaziz University for Health Sciences

Clinical Pharmacy Practitioner

Salary: Based on Experience
Position Type: Clinical Pharmacy Practitioner

Position Description:

King Saud Medical City Pharmaceutical Care Services is looking for the right candidates in a number of positions. King Saud Medical City (KSMC) is the oldest and largest general hospital in Riyadh, consisting of three hospitals with a total of 1200 inpatient beds, including 150 in its critical care units. KSMC averages 35,000 admissions, 200,000 emergency department visits, and 350,000 outpatient visits annually. The Medical City employs a staff of 8,000 and supports 20 physician residency training programs. The campus is expanding, including the construction of a new pediatric and maternity hospital which will open in 2016, followed by new medical and surgical towers in 2017-2019. Position Description. KSMC is seeking applicants for positions of clinical pharmacists for a variety of specialties including: adult medicine, critical care, pediatric, oncology, cardiology, infectious disease, and nephrology. Responsibilities of clinical pharmacists include working directly with physicians, other health professionals, and patients on their designated specialties to ensure that the medications prescribed for patients contribute to the best possible health outcomes. Assess the status of the patient's health problems and determine whether the prescribed medications are optimally meeting the patient's needs and goals of care. Evaluate the appropriateness and effectiveness of the patient's medications. Recognize untreated health problems that could be improved or resolved with appropriate medication therapy. Follow the patient's progress to determine the effects of the patient's medications on his or her health. Consult with the patient's physicians and other health care providers in selecting the medication therapy that best meets the patient's needs and contributes effectively to the overall therapy goals. Advise the patient on how to best take his or her medications. Support the health care team's efforts to educate the patient on other important steps to improve or maintain health, such as exercise, diet, and preventive steps like immunization. Refer the patient to his or her physician or other health professionals to address specific health, wellness, or social services concerns as they arise. Precept undergraduate and Pharm.D. students and contribute the body of knowledge through research.

Qualifications. Qualified candidates must possess a Pharm.D. degree, PGY-1 and PGY-2 residency training (or equivalent clinical experience) are desired, and at least 1 years of clinical experience. Board certification is preferred. The position are available immediately. We will be interviewing at the ACCP Global Conference in San Francisco. Potential candidates should contact us by e-mail at the address below in advance of the conference if they are interested in learning more about this position.

The campus is expanding, including the construction of a new pediatric and maternity hospital which will open in 2016, followed by new medical and surgical towers in 2017-2019. Position Description: KSMC is seeking applicants for the position of Head of Medication Safety. Provides a leadership role in formulating policy and instituting models that promote medication safety in all aspects of the medication management process. In conjunction with the Director of Pharmaceutical Care Services and with the department's medication safety officers, the role is responsible for coordinating all activities related to medication safety provided by the pharmacy department. These activities involve reporting, system and process evaluation, formulation of recommendations and initiatives, coordination of intervention strategies and monitoring of activities related to medication safety. This individual serves as a liaison to pharmacy, nursing and the medication staff leadership personnel. Duties and responsibilities include identifying best practices for medication safety; providing project management and overall facilitation for prioritizing and advocating patient safety initiatives related to the design and implementation of systems and processes that support medication safety; participate in facility based root cause analyses; develop, review, refine and implement a medication safety plan; and formulate educational sessions for nurses, pharmacists, physicians and allied health professionals based on reports in the literature, responses to corrective action plans, and recommendations from committee activities.

Qualifications. Qualified candidates must possess a Pharm.D. degree. PGY-1, residency training (or equivalent clinical experience) is desired, A minimum of 3 to 5 years of experience in medication safety at a progressive pharmacy department required. Supervisory experience desired.

The position are available immediately. We will be interviewing at the ACCP Global Conference in San Francisco. Potential candidates should contact us by e-mail at the address below in advance of the conference if they are interested in learning more about this position.

Table #15: Larkin Health Sciences Institute

Assistant/Associate Professor of Clinical and Administrative Sciences

Position Type: Non-Tenure Track Clinical Faculty
Position Start Date: 7/1/2016
Deadline: 2/1/2016
Salary: Based on Experience

Position Description:

Larkin Health Sciences Institute (LHSI) College of Pharmacy is seeking applicants to fill several faculty positions. Positions can be either ambulatory or inpatient based. Pharmacists in all specialty areas are encouraged to apply. The successful candidate will have a variety of responsibilities including didactic teaching, clinical practice with preceptorship of students, service to the College, and scholarly endeavors. Many different potential practice sites are available including our partner teaching hospital, Larkin Community Hospital. Since we are planning to enroll our inaugural class in August 2016, the opportunity to develop a new clinical site is likely. The exact emphasis or

responsibilities are flexible, and will be tailored to meet the individual professional goals of the candidate. In lieu of tenure LHSI offers the opportunity for renewable, multi-year contracts.

Candidates shall have a Pharm.D. with residency and/or or fellowship training (or equivalent experience) and be licensed/eligible for licensure in Florida. Larkin College of Pharmacy will have an innovative educational program and seeks individuals who aspire to work in an environment where they can directly impact the quality of education and patient care. LHSI is a private, non-profit Educational Institute located in Miami, FL. LHSI is an Equal Opportunity Employer.

Table #18: Providence Health and Services

Drug Information Clinical Pharmacist

Position Start Date: 12/1/2015
Deadline: 2/18/2015
Salary: Based on Experience

Position Description:

Providence is calling a Drug Information Clinical Pharmacist to Providence Health and Services in Renton, WA. The Drug Information Clinical Pharmacist supports the Drug Information Manager, who is the process owner for formulary standardization across the system. The key responsibilities for this position are the development of evidence-based reviews necessary for the evaluation of medications and the dissemination of formulary-related information across the system.

In this position you will:

- Write, review, edit, and present high-quality, evidence-based documents such as class reviews, drug monographs, therapeutic interchanges, drug shortage mitigation strategies, newsletters, and SBARs, ensuring time-sensitive completion and accuracy of clinical content.
- Adapt and coordinate expert system-wide collaboration from local, regional, and system level expert stakeholders on ambulatory and acute formulary reviews, therapeutic interchanges, and non-review medication matters.
- In coordination with the Epic Willow Clinical Pharmacy Analyst, evaluate safety alerts and drug database updates for collaborative input into medication management and electronic medical databases.
- Track all system-wide formulary related documentation. Maintain a repository of review documents.
- Develop high quality comprehensive educational materials for all phases of care and all healthcare team members, patients, and caregivers.
- Participate in quality improvement activities to improve patient care, medication safety and pharmacy operations as well any additional activities including practice-oriented research.

Required qualifications for this position include:

- Doctor of Pharmacy (Pharm.D.) from accredited school of pharmacy.
- Current license or licensure eligible to practice as a pharmacist is required for Washington State. If eligible, must obtain license before the first day of employment.
- Two (2) years' experience as Clinical Pharmacist.
- In addition, candidate must meet one of the following requirements:
 - PGY-2 Drug Information residency and at least 1 year experience in formulary management, or:
 - PGY-1 residency and at least 2 years' experience in formulary management, or:
 - At least 5 years' formulary management-related experience.
- Documented experience in evidence-based medicine research.
- Familiarity with Willow Epic electronic medical database including one or more of the following: order set development and/or validation; ERX validation; or transition to clinical use and/or drug distribution activities.

Preferred qualifications for this position include:

- Two (2) years' experience as Clinical Pharmacist in both the acute-care and ambulatory settings.

• Intermediate experience with Microsoft Office applications including Outlook, Word, Excel, PowerPoint, and SharePoint.

About the department you will serve:

Providence Strategic and Management Services provides a variety of functional and system support services for all eight regions of Providence Health & Services from Alaska to California. We are focused on supporting our Mission by delivering a robust foundation of services and sharing of specialized expertise.

Table #20: Regis University School of Pharmacy

Assistant/Associate Professor - Clinical Oncology

Salary: Based on Experience

Position Type: Non-Tenure Track Clinical Faculty

Position Description:

The School of Pharmacy at Regis University invites applications at the assistant or associate professor rank for a full-time, 12-month appointment in the Department of Pharmacy Practice. This position provides an exciting opportunity to contribute to an innovative student-centered Doctor of Pharmacy program that integrates the biomedical, pharmaceutical, social administrative and clinical sciences. Curricular content is developed primarily using Team-Based Learning (TBL), in which the faculty facilitates student learning that promotes self-directed learning, teamwork, and critical thinking skills.

Primary responsibilities include teaching in the curriculum, especially in the area of oncology pharmacy, practicing oncology pharmacy at the practice site, and precepting pharmacy students at the practice site. In addition, the

faculty member will maintain an innovative scholarship program, and engage in service to the school, college, university, and community.

Regis University is a nationally recognized Jesuit Catholic university located in the heart of Denver, Colorado, whose purpose is to prepare leaders in service of others. We emphasize excellent teaching, values-based education, service learning, and scholarship. We are committed to creating an inclusive academic community that is characterized by mutual respect for people of all different social distinctions. We therefore encourage applications from historically underrepresented groups in professional education.

Qualified individuals must have an earned doctorate degree, one year of residency training or the equivalent, and an understanding of contemporary pharmacy practice. Specific expertise in oncology and the myriad of drugs used in that specialized area are required. Candidates must be licensed to practice or eligible to be licensed to practice pharmacy in Colorado.

Individuals with pharmacy practice experience are encouraged to apply; those having completed a PGY2 residency in oncology and/or being a board certified oncology pharmacist will be given preference.

Regis University, inspired by its Jesuit Catholic heritage, has been committed to academic excellence, personal development and community engagement since its founding in 1877. Regis provides values-based education at the undergraduate, graduate and doctoral levels and is accredited by the Higher Learning Commission: A Commission of the North Central Association of Colleges and Schools. The motto "Men and Women in Service of Others" on the University seal describes the purpose of Jesuit education: to form men and women who use their knowledge in the unselfish service of others. Regis is comprised of three colleges: the College for Professional Studies, Regis College and the Rueckert-Hartman College for Health Professions.

Regis University's main campus is based in Denver, Colorado, but has campuses throughout Colorado's Front Range and through its distance learning initiatives. Regis currently serves about 10,000 students in online and campus environments and for the 19th consecutive year has been ranked by U.S. News & World Report as a top school in the western region.

Pharmacist - Pharmacy-Inpatient

Position Type: Staff Pharmacist, Hospital

Salary: DOE

Position Description:

The following job descriptions are considered to be "typical" job assignments and are not intended to be complete work statements. Employees may also perform other related duties as assigned or required by the workload.

The Department of Pharmaceutical Services provides a full range of services for patients cared for by UCSF Medical Center as well as its providers and payors. These services include, but are not limited to, drug procurement, storage, and security; safe, accurate, and timely preparation and distribution of drugs; clinical pharmacy services for patients; development of patient drug use policies within the Parnassus and Mount Zion Campuses; drug information services

for clinicians and patients; and participation in technology assessment and quality assurance programs. The Department encompasses with the UCSF Department of Clinical Pharmacy, an academic unit within the School of Pharmacy which has primary responsibility for teaching professional courses in the Pharm.D. curriculum, research, and public service.

The Department of Clinical Pharmacy and Department of Pharmaceutical Services share its philosophy of pharmaceutical care. As members of the health care team, the Staff Pharmacists II share responsibility for providing high quality, cost-effective patient care which promotes health. This includes evaluating and managing drug regimens for appropriateness of choice; teaching patients and their caregivers how to use drugs in the safest and most effective way; helping patients and their caregivers take an active role in managing their drug therapy; and advocating for patients the safe and effective use of drugs to other health care decision makers.

The flexibility to orient and work at all UCSF Medical Center locations is required.

REQUIRED QUALIFICATIONS:

Current pharmacist license to practice pharmacy in the State of California. Must be in good standing with the California State Board of Pharmacy

Current American Heart Association CPR certification

Maintain exceptional written and verbal communication skills

Ability to work well with patients, pharmacists and other healthcare personnel and administrators

Flexible; able to cope with rapid change; comfortable with an ambiguous environment

Ability to troubleshoot problems efficiently and effectively

Maintain effective organizational, management and supervisory skills

Demonstrated ability to design, implement and evaluate programs in a timely fashion

Ability to effectively participate in and develop a team

Demonstrated clinical pharmacy skills and knowledge

Experience in a hospital setting, may include one year residency in hospital or clinical pharmacy practice and/or one year supervisory, or an equivalent combination of education and experience

The flexibility to orient and work at all UCSF Medical Center locations

PREFERRED QUALIFICATIONS:

Prefer candidates with Pharm.D. degree

Prefer candidates with completion of an ASHP- accredited residency and/or fellowship

To apply, please visit <http://jobs.ucsfmedicalcenter.org/> and search for Job ID Number(s) 9060, 9066, 9198, 9316, 9384, 9562 (Part Time), 9563 (Part Time)

Pharmacist Specialist - Solid Organ Transplant - Pharmacy-Inpatient

Salary:

DOE

Position Description:

The Department of Pharmaceutical Services provides a full range of services for patients cared for by the Medical Center as well as its providers and payers. These services include, but are not limited to, drug procurement, storage, and security; safe accurate and timely preparation and distribution of drugs; clinical pharmacy services for patients; development of drug use policies within the Medical Center; drug information services for clinicians and patients; and participation in technology assessment and quality assurance programs. The Department collaborates with the

UCSF Department of Clinical Pharmacy, an academic unit within the School of Pharmacy, which has primary responsibility for teaching professional courses in the Pharm.D. curriculum, research, and public service. The Department of Clinical Pharmacy and Department of Pharmaceutical Services share its philosophy of pharmaceutical care.

The purpose of this position is to provide an expert level consultation to the pharmacy, medical and nursing staff in the area of solid organ transplantation. The specialist will optimize drug utilization in transplant patients, including but not limited to developing guidelines, clinical pathways, restricted use criteria, drug shortage management, and policies. Identify opportunities for improvement regarding medication use in the transplant area, including but not limited to performing medication use evaluations and conducting prospective audits. Provide ongoing education to pharmacists, providers, and other disciplines throughout UCSF Medical Center. When appropriate, perform or assist in formulary evaluation for medications used in the solid organ transplant setting. Evaluate medication error reduction strategies related to medications used in the solid organ transplant setting. Provide appropriate documentation of all activities, including presentation at local and national meetings and publication in peer-reviewed journals. Precept residents and students in solid organ transplant rotations. Serve as the PGY2 Transplant Residency Program Director (when established). Serve as the pharmacy department liaison with the Transplant Department, Hepatitis C Clinic, Selection Committee and other committees as directed by the Director of Pharmacy. The flexibility to orient and work at all UCSF Medical Center locations is required.

REQUIRED QUALIFICATIONS:

Current California Pharmacist License

At least three years of hospital pharmacy practice and clinical pharmacy practice experience in the transplant setting is required

Must be able to speak, read and follow instructions in English

BS Pharmacy or Pharm.D. Degree: PGY1 Residency required. PGY2 Specialty residency training in Transplant or equivalent solid organ transplant experience required.

Current American Heart Association CPR certification

The flexibility to orient and work at all UCSF Medical Center locations is required

PREFERRED QUALIFICATIONS:

BCPS certification preferred

Demonstrated skills in pharmaceutical environment and with medical center and billing and reimbursement data

Experience speaking in front of large interdisciplinary groups at the local and national level

Table #22: University of Charleston School of Pharmacy

Acute Care-General Medicine Clinical Faculty

Position Start Date: 9/2/2015

Deadline: 7/1/2016

Salary: Based on Experience

Position Type: Non-Tenure Track Clinical Faculty

Position Description:

The University of Charleston School of Pharmacy seeks applicants for Assistant / Associate Professor in the Acute Care - General Medicine practice area. The School of Pharmacy is an instrument of the University of Charleston, designed to prepare pharmacists who will provide comprehensive patient care, advance the profession through research and advocacy, and to serve the community as leaders in rural health care. The School fosters active participation of faculty, staff and students in an agenda of community outreach, advocacy, and activism as one of the hallmarks of the pharmacy program. The University of Charleston's Pharmacy School offers an integrated curriculum that seeks to develop pharmacy practitioners who are able to effectively communicate with diverse populations and work as an integral member of the healthcare delivery team.

The faculty position is full-time, non-tenure track (rank and salary commensurate with skills and experience). Faculty members are expected to support the vision and mission of the School of Pharmacy through teaching in the professional pharmacy curriculum, providing pharmacy services to identified clinical practice sites, participating in scholarly activities, being an active member of School of Pharmacy committees, and improving patient health outcomes in the state and region. The practice site for this position is at Cabell Huntington Hospital in Huntington, WV which is a 45 minute commute from campus.

Qualified candidates should have the Pharm.D. degree, completion of a one or two year pharmacy residency (or equivalent practice experience), and be eligible for licensure in West Virginia. A high degree of knowledge of standards and current trends in pharmacy practice, particularly in the area of acute care and previous academic experience is highly desired.

The University of Charleston School of Pharmacy boasts many interesting and distinctive assets, including:

- The School of Pharmacy has an onsite, faculty driven medication & disease management clinic. Faculty members participate in direct patient care activities, community outreach and teaching of pharmacy students in the clinic.
- The School of Pharmacy supports a Pharmacy Practice and Community Care residency program providing experience in the development and justification of clinic practice, and academic training through a teaching certificate program.

A brief position description is listed below. More complete details are available from the contact person. Additional information regarding the School of Pharmacy can be found on our website: www.ucwv.edu/Pharmacy

General Medicine Practice:

The successful candidate is responsible for maintaining a clinical practice and education model with an inpatient rounding medical team at Cabell Huntington Hospital. The overall desire is for the faculty member to be highly integrated into the multi-disciplinary teaching model. Medicine teams may include any combination of an attending physician, medical residents, interns, and students, as well as, a clinical pharmacist, pharmacy residents, and fourth year pharmacy students.

Additional duties will include:

- Provides clinical interface with nurses, quality assurance, and medication utilization control.
- Reviews medication orders for compliance with aspects of Pharmaceutical Care.
- Provides patient education regarding medications.
- Contributes to specialty practice through committee participation and development of policies, procedures, and pharmacy practice protocols.
- Trains pharmacist staff in areas related to acute care.
- Contributes to patient care directly and through coordination of departmental clinical practices and programs.
- Provides in-service education and drug information to health care professionals.
- Delivery of patient care is individualized relative to age/developmental, psycho-socio-cultural patient treatment needs.
- Performs clinical interventions in a timely manner.
- Documents clinical interventions completely in the appropriate software according to departmental procedures.

The faculty member's time will involve teaching fourth year pharmacy students and providing patient-centered services at the practice site, participating in the education and training of the school's PGY1 residents and providing

didactic education in the classroom. The faculty member will also be expected to participate in both scholarship and service activities.

Table #23: University of Illinois at Chicago College of Pharmacy

Assistant/Associate/Full Professor (tenure track) of Pharmacy Practice

Position Type: Tenure Track Clinical Faculty
Position Start Date: 1/4/2016
Deadline: 11/16/2015
Salary: negotiable based on rank/experience

Position Description:

The Department of Pharmacy Practice in the College of Pharmacy invites applications for one or more tenure track faculty at the rank of Associate Professor or full Professor beginning January 4, 2016 or as soon as possible. Applications for Assistant Professor (tenure track) will also be considered. Founded in 1859, our College is the fifth oldest College of Pharmacy in the United States and the oldest entity within the University of Illinois system. Our education and research programs are ranked among the top colleges of pharmacy in the country. The College of Pharmacy is one of six health profession colleges on the UIC campus, one of only five academic health centers in the U.S. with all of the health professions.

Our tenure-track faculty maintain active, funded, collaborative research programs aimed at evaluation of therapeutic agents, identifying factors contributing to variability in drug response, and evaluation of approaches for optimizing drug administration research expertise encompasses drug metabolism, pharmacodynamics, pharmacogenomics, and pharmacokinetics, with a record of application in cardiology, infectious diseases, neurology, oncology, psychiatry and pulmonary medicine.

Applicant must have a BS in Pharmacy or Pharm.D., completed a residency, fellowship or PhD program and be eligible for licensure in the United State at time of hire. Candidates providing research skills or areas of interest that complement current faculty are highly preferred. Ideal candidates will have an established research program. A demonstrated ability and commitment to teaching excellence at the professional level and a history of innovative, interdisciplinary, and collaborative research interactions are preferred.

Duties include establishing a competitively funded research program, teaching and clinical practice. If engaged in clinical practice in Illinois, candidate must present evidence of a license as a registered pharmacist in the state of Illinois by employment start date. Faculty rank will commensurate with the norms and criteria of the Department.

This search will remain open until positions are filled. For fullest consideration, applicants are required to submit a complete application. In addition, candidates must attach curriculum vitae, cover letter, and contact information for three professional references to the online application system (link to be provided to interested candidates). The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply.

Table #25: University of Montana

Assistant Professor - Psychiatric Pharmacy Practice

Position Type: Tenure Track Clinical Faculty

Position Start Date: 7/1/2016

Deadline: 12/15/2015

Salary: \$90,000 - \$115,000

Position Description:

The University of Montana invites applications for a tenure-track Assistant or Associate Professor in Pharmacy Practice beginning August 2016. Position has primary responsibility for teaching therapeutics and pharmacy practice skills in psychopharmacotherapy or mental health pharmacotherapy as well as serving as the preceptor for Advanced Pharmacy Practice Experience (APPE) students. Opportunities for translational research in a neuropsychiatric setting are available. The successful candidate is expected to develop a research program and provide service commensurate with a tenure-track position.

About UM and the Department

UM is located in picturesque Missoula, Montana, a vibrant community of about 80,000 persons. It is the second largest city in Montana and is a hub for art, culture, and healthcare in Western Montana. The 56 acre main campus is

located at the base of Mount Sentinel and near the Clark Fork River. Outdoor opportunities abound in the nearby area. Approximately 15,000 students attend UM and the associated Missoula College.

The Department of Pharmacy Practice is comprised of 10 tenure track faculty and a multitude of adjunct faculty and clinical instructors spread throughout the state of Montana. Students complete required APPEs in the state and can choose to complete elective APPEs either in state or out of state. Class size is 65 students.

Assistant Professor in Community Pharmacy Practice

Position Type: Tenure Track Clinical Faculty

Position Start Date 7/1/2016

Deadline 11/8/2015

Salary \$90,000 - \$115,000

Position Description

The Department of Pharmacy Practice invites applications from creative, progressive pharmacists for a position dedicated to the coordination of advanced pharmacy practice experiences (APPE) in community pharmacy practice. Candidates must hold a Doctor of Pharmacy or equivalent degree and have practice experience in the community pharmacy setting. Preference will be given to those with a community practice residency. Rank for the successful candidate will be defined by degree and experience.

The successful candidate for this tenure-track, calendar-year position will be responsible for curricular content related to community pharmacy practice, including instruction in pharmacy practice courses offered throughout the first three years of the professional program. However, the primary focus of the position will be to facilitate and coordinate the development and incorporation of pharmaceutical care activities in community pharmacy APPE sites. Scholarly work related to innovative community pharmacy practice is expected. The candidate must have excellent communication skills, both oral and written, be eligible for licensure in Montana, and be able to travel to community pharmacy sites throughout Montana.

Table #27: University of Saint Joseph

Assistant / Associate Professor of Oncology Pharmacy Practice

Position Type: Non-Tenure Track Clinical Faculty

Position Start Date: 9/1/2015

Position Description:

University of Saint Joseph School of Pharmacy, Department of Pharmacy Practice & Administration, is now accepting applications for a calendar year, non-tenure or tenure-track clinical faculty member in oncology pharmacy practice. Selected faculty will play an essential role in the continued development of our innovative School of Pharmacy. Responsibilities will include development and delivery of integrated educational experiences, pursuit of scholarly activities, development and maintenance of an oncology clinical practice site at the Smilow Cancer Hospital/Care Centers, and service contributions to the School of Pharmacy, the University, and the community at large. Successful candidates will possess a high level of clinical expertise and competency, enthusiasm for teaching, experience with technology-supported teaching, and the interpersonal skills necessary for interacting with learners, faculty, patients, healthcare providers, and the public. Qualified applicants will possess a Doctor of Pharmacy degree and be eligible for licensure in the State of Connecticut. Post-doctoral residency and/or fellowship training or equivalent experience is required. The search committee will continue to review completed applications until the positions are filled. Application should include a letter of intent, curriculum vitae, a statement of teaching philosophy, a statement of scholarship philosophy, and the names, addresses, phone numbers and e-mail addresses of four professional references.

University of Saint Joseph, founded in 1932 by the Sisters of Mercy to provide higher education opportunities for women, a comprehensive institution ranked among the best in the Northeast. Responsive to the evolving educational needs of the community, the School of Graduate and Professional Studies also offers both women and men graduate degree programs in many fields, a Program for Adult Learners, professional certificate programs relevant to today's workforce, and other continuing education opportunities.

University of Saint Joseph School of Pharmacy, the first doctoral program in the College's 78-year history, opened at 229 Trumbull Street in downtown Hartford in the fall of 2011.

The University of Saint Joseph School of Pharmacy's Doctor of Pharmacy Program is accredited by the Accreditation Council for Pharmacy Education, 135 South LaSalle Street, Suite 1400, Chicago, IL 60503, 312.664.3575; FAX 312.664.4652, web site www.acpe-accredit.org.

University of Saint Joseph is committed to building and developing a diverse environment where a variety of ideas, cultures, and perspectives can thrive. Salary and benefits are competitive.

University of Saint Joseph is an equal opportunity/affirmative action employer.
